

LIGHT BOX

Content Day

On Monday 29th November, we'll be setting up the light box and some Christmas accessories to create some lovely social media content pictures

If you haven't used one before, the light box is like a mini photo studio, providing a clean bright background for your product, your tools, a leaflet or anything else you'd like to take pictures of. All you need is a smart phone camera and some objects, then you're good to go.

If this will be useful for you to use, please feel free to pop in and create some images. Be creative and use it however you'd like! Feedback on images and collaboration warmly welcomed.

Plenty of coffee available, just bring your phone & products, props or whatever you'd like to photograph.

Donations to Calstock Arts appreciated.
